## EDUCATION

---

**THE UNIVERSITY OF TEXAS AT AUSTIN, McCombs School of Business, Austin, TX** **May 2018**  
**Master of Business Administration**, Concentration in Investment Management

- Graduate Finance Association (GFA) member

**THE UNIVERSITY OF CALIFORNIA, SAN DIEGO, La Jolla, CA** **June 2012**  
**Bachelor of Science in Computer Science with minor in Computer Arts**

- Major GPA: 3.6

## EXPERIENCE

---

**MBA INVESTMENT FUND, LLC, Austin, TX** **2016 – Present**  
**Portfolio Manager, Performance Manager**

- One of 16 students selected through a formal application and interview process to actively manage value and growth portfolios with a total AUM of approximately \$24MM
- Conduct fundamental research by building valuation models and presenting investment ideas to fund advisors

**APPLE INC., Cupertino, CA** **2012 – 2016**  
**Software Quality Assurance Engineer**

- Led automaton project to increase the efficiency of the Notes application team's stress testing process for uncovering quality issues; shared the resulting script that generates upward of 1000 unique notes with various settings to team of 10 colleagues, all of whom use the script today to test assigned areas
- Identified a detrimental issue in a just-released version of iBooks for iOS application amongst a team of over 20 engineers; worked cross-functionally with project managers, upper management and developers in order to correct the technical issue and push coding fix out to customers within the week
- Increased the efficiency of PDF downloads 10x by automating multiple programs to identify quality issues, which has since been adopted by the iBooks team
- Designed and implemented over 250 test cases throughout each new application release, ensuring applications met Apple's standard for public release and serving as a template for future releases
- Contributed to development and launch of numerous versions of iBooks, iBooks Author, iWork, and Notes

**BROADCOM CORPORATION, San Diego, CA** **2011 – 2012**  
**Engineering Intern**

- Enhanced the efficiency of the localization testing process for Japanese and Chinese languages by creating automation scripts and presenting project to team
- Led Firmware Integration Testing which examines the ability of the Bluetooth (BTW) and Wireless Local Area Network (WLAN) combination boards
- Collaborated closely with senior engineers to complete Basic Image Profiling (BIP) Conformance testing via the Profile Tuning Suite, as well as system integration and coexistence testing
- Worked full time during summer and was asked to continue working part time during the school year as a member of the Bluetooth engineering group
